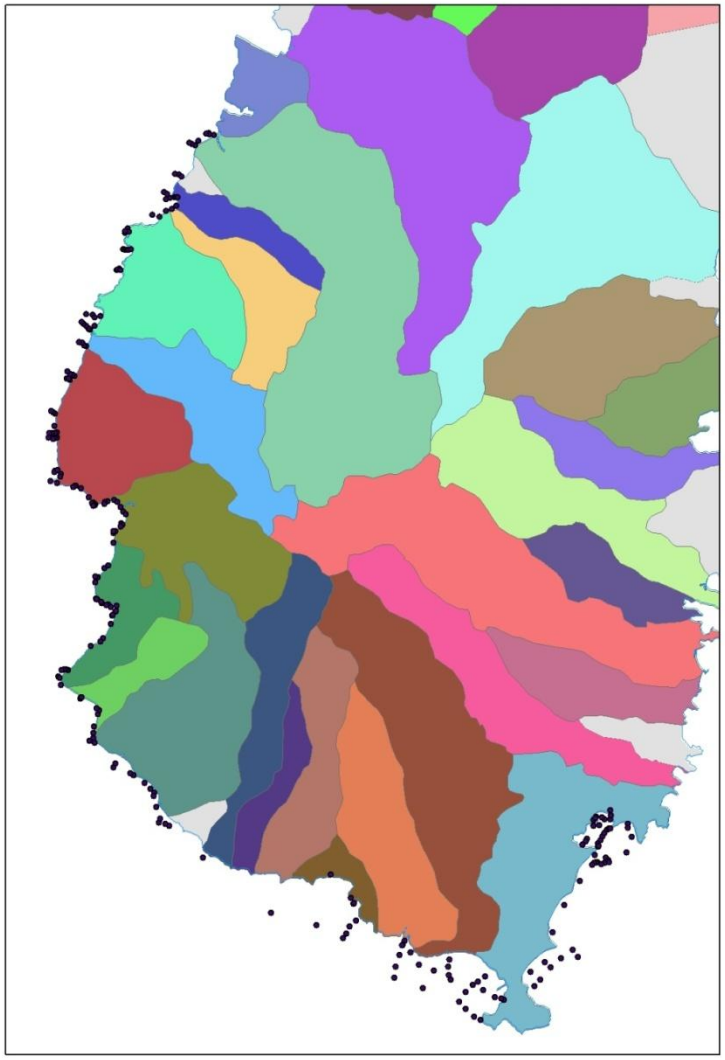
Newcastle University

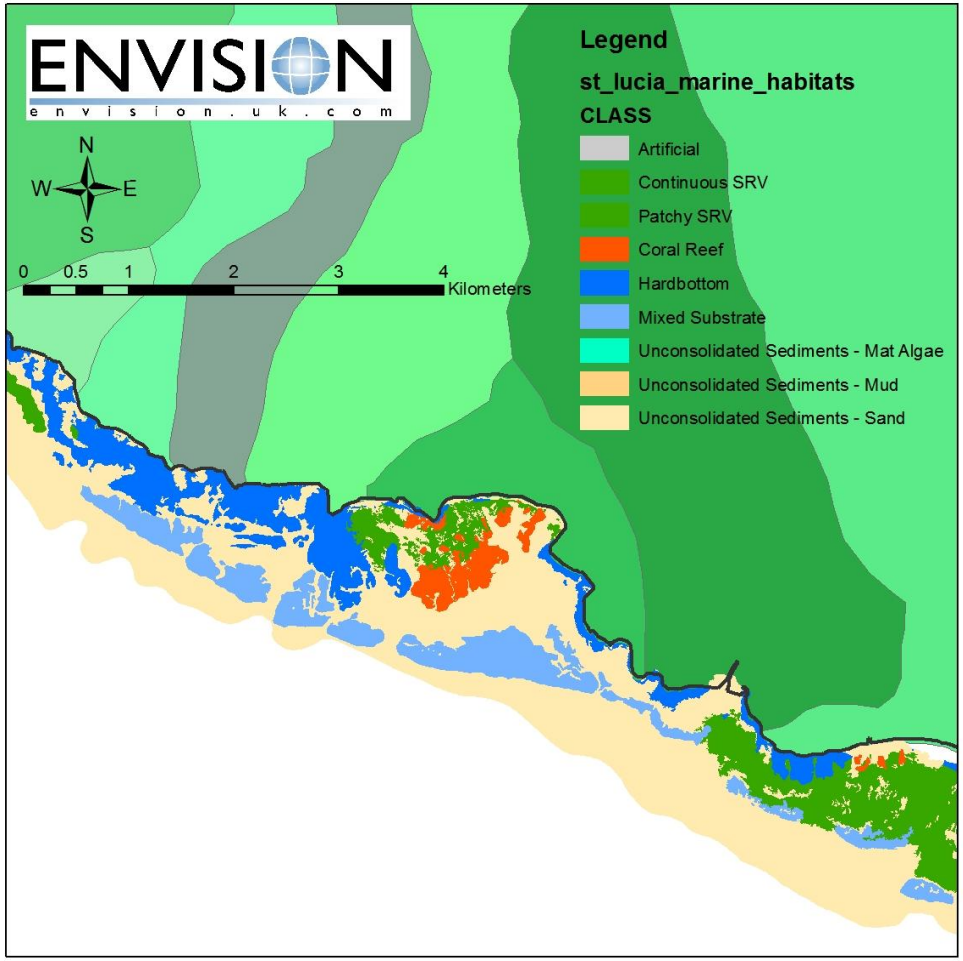
ATKINS

How do we link indicators to management?

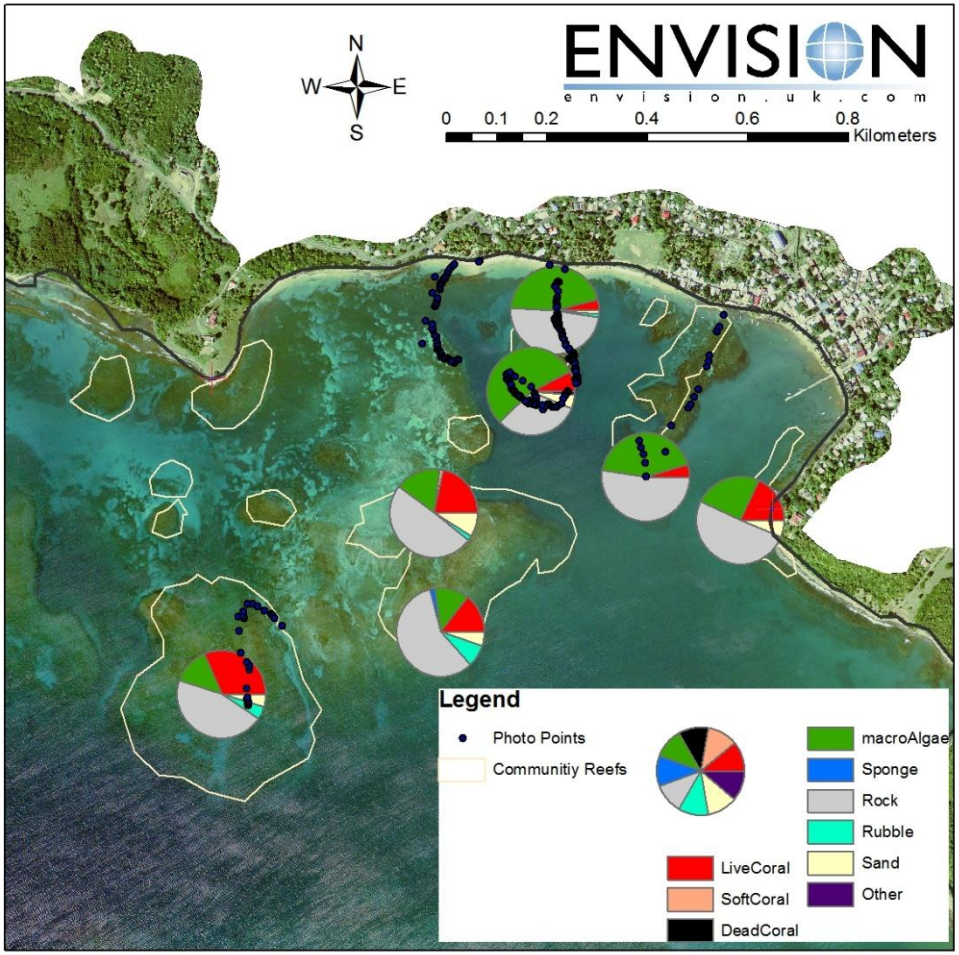


FUGRO GEOID

Select bioindicator sites from similar habitats



Example: Historical mapping comparison



Data source:
CANARI (2003)

FUGRO GEOID

Scenario:

- 10 sample sites for an EIA or monitoring study
- What is the interpretation of the bioindicators?
- The next four slides illustrate the interpretation AND means to communicate them from your analysis of the video footage.
